Board of Directors - Volunteer Position

Sustainable Food Edmonton (SFE) is a non-profit charitable organization that initiates and supports projects and programs to encourage the building of community through urban agriculture.

As part of developing a stronger volunteer led organization, SFE is seeking individuals with an interest in urban agriculture and a variety of experiences (particularly in accounting, human resources, labour relations, legal, and fundraising), to provide leadership and expertise as part of our Board of Directors. Time commitment is approximately 10 hours per month.

Our Board of Directors is comprised of accomplished professionals and passionate community members in and around the Capital Region. Our directors provide strategic governance and champion our vision of raising awareness through education that results in communities engaged in healthy food and sustainable food systems.

Requests for a board information package can be made to board@sustainablefoodedmonton.org
